Servian Delegates Informed Capitulation Matter Of Hours

BANNER RECORD IS MADE BY THE TONOPAH POST OFFICE

A criterion without an equal in determining the prosperity of any community is the record of stamp sales at the postoffice. In looking over the figures for the quarters ending December 31 for the past four years, it has been observed that the Tonopah office transacted more business in 1912 and during the preceding period stated.

For the quarter ending December 31, 1912, the stamp sales totaled \$4915.70. For the same period in 1911 the sales reached \$3647.43, or \$1268.27 less than last year. In 1910 \$4330.27 was recorded, while the figures of 1909 show \$3885.27 received.

The figures of the four years show 1912 to be the banner year of the lot. The year 1910 was the second best while 1911 was the poorest one of all.

The year 1913 should prove a banner one for Tonopah," declared Postmaster Stewart today. The receipts from the parcel post should aid greatly in the increasing of our revenues, while from the amount of business transacted in the other departments, the receipts should excel those of any past year."
